Report on review of interim condensed consolidated financial information

To the board of directors of Al Mal Investment Company – KPSC Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Al Mal Investment Company (Kuwaiti Public Shareholding Company) (the "Parent Company") and its subsidiaries (collectively the "Group") as of 30 September 2016 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of presentation set out in Note (2). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of presentation set out in note (2).

Emphasis of matters

We draw attention to the following:

- a) Note 8 to the interim condensed consolidated financial information, where the Group is following Central Bank of Kuwait requirements with regard to provisioning against refundable developments expenses.
- b) Note 2(b) to the interim condensed consolidated financial information, where the Group's total current liabilities exceeded its total current assets by KD3,090,493. Though this condition may indicate the existence of a material uncertainty which may cast significant doubt about the Groups ability to continue as a going concern, the Parent company's management has prepared these interim condensed consolidated financial information on a going concern basis due to the reasons specified in note 2(b).

Our conclusion is not qualified in respect to the above matters.

Report on review of other legal and regulatory requirements

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Memorandum of Incorporation and Articles of Association of the Parent Company, as amended, have occurred during the nine-month period ended 30 September 2016 that might have had a material effect on the business or financial position of the Group.

2

Report on review of interim condensed consolidated financial information of Al Mal Investment Company – KPSC (continued)

Report on review of other legal and regulatory requirements (continued)

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any material violations of the provisions of Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organisation of banking business, and its related regulations, or of the provisions of Law No. 7 of 2010 concerning the Capital Markets Authority and its related regulations during the nine-month period ended 30 September 2016.

1 Incorporation and activities

Al Mal Investment Company – KPSC, ("the Parent Company"), is a Kuwaiti Public Shareholding Company established on 2 January 1980 under the Commercial Companies Law No. 15 of 1960 and amendments thereto. The Parent Company is regulated by the Central Bank of Kuwait and the Capital Markets Authority as an investment company and its shares are listed on the Kuwait Stock Exchange. The Parent Company and its subsidiaries are together referred to as "the Group".

The principal objectives of the Parent Company are as follows:

- Investment in various economic sectors through participating in establishing specialised companies or purchasing securities or shares in those companies;
- Act as investment trustees and manage different investment portfolios for others; and
- Act as intermediary in borrowing operations in return for commission;

Further, the Parent Company has the right to participate and subscribe, in any way with other firms which operate in the same field or those which would assist in achieving its objectives in Kuwait and abroad and to purchase those firms or participate in their equity.

The address of the Parent Company's registered office is PO Box 26308, Safat 13124, State of Kuwait.

The new Companies Law No. 1 of 2016 was issued on 24 January 2016 and published in the Official Gazette on 1 February 2016 cancelled the Companies Law No. 25 of 2012 and its amendments. As stipulated in article (5) thereto. The new Law will be effective retrospectively from 26 November 2012 and the new Executive Regulations of Law No. 1 of 2016 was issued on 12 July 2016.

The interim condensed consolidated financial information for the nine month period ended 30 September 2016 was authorised for issue by the Parent Company's board of directors on 9 November 2016.

The annual consolidated financial statements for the year ended 31 December 2015 were authorised for issuance by the board on 29 March 2016 and approved by the shareholders at the Annual General Meeting held on 16 May 2016.

2 Basis of preparation and fundamental accounting concept

a) Basis of preparation and presentation

The interim condensed consolidated financial information of the Group for the nine-month period ended 30 September 2016 has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting", except as noted below.

The annual consolidated financial statements for the year ended 31 December 2015 were prepared in accordance with the regulations of the Government of Kuwait for financial services institutions regulated by the Central Bank of Kuwait (CBK). These regulations require adoption of all IFRS except for the IAS 39 requirements for a collective provision, which has been replaced by the Central Bank of Kuwait's requirement for a minimum general provision as described under the accounting policy for impairment of financial assets.

The interim condensed consolidated financial information has been presented in Kuwaiti Dinars which is the functional and presentation currency of the Parent Company.

Basis of preparation and fundamental accounting concepts (continued)

a) Basis of preparation and presentation (continued)

The interim condensed consolidated financial information does not include all information and disclosures required for complete financial statements prepared in accordance with the International Financial Reporting Standards. In the opinion of the Parent Company's management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2015.

Operating results for the nine-months period ended 30 September 2015 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2016. For further details, refer to the consolidated financial statements and its related disclosures for the year ended 31 December 2015.

The subsidiaries are consolidated based on the management accounts for the period ended 30 September 2016.

b) Fundamental accounting concept

As of 30 September 2016, the Group's total current assets amounted KD12,107,061 and its total current liabilities amounted to KD15,197,554 (total current liabilities exceeded total current assets by KD3,090,493). However, the Group's total assets exceeded its total liabilities by KD23,640,474 and though the total current assets of the Group represented only 84.68% of the total current liabilities, a significant amount of the current liabilities amounting to KD4,669,807 are due to related parties and KD4,537,786 are due to trade creditors and others which are related to the project which is referred to in note 8.1 and the management doesn't expect such liabilities to be called upon until the Group is able to recover its dues from the project. Further, the Parent Company's management is also evaluating various strategies to improve the operating performance, financial position and adequacy of financial resources of the Group to enable to meet its future obligations on due dates. Accordingly, the Parent Company's management believes the Group has adequate resources to meet its short-term obligations, and accordingly, these interim condensed consolidated financial information were prepared under a going concern basis.

Had the going concern basis not been used, adjustments would be made relating to the recoverability of recorded asset amounts or to the amount of liabilities to reflect the fact that the Group may be required to realize its assets and extinguish its liabilities other than in the normal course of business, at amounts different from those stated in the interim condensed consolidated financial information.

3 Significant accounting policies

The interim condensed consolidated financial information have been prepared in accordance with the accounting policies adopted in the Group's most recent annual consolidated financial statements for the year ended 31 December 2015. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

3 Significant accounting policies (continued)

The Group has adopted new accounting pronouncements which have become effective for the first time in 2016, non of which had any significant impact on the Group's results or financial position. These are:

Standard or Interpretation	Effective for annual periods beginning
IFRS 11 Accounting for Acquisitions of Interests in Joint Operations – Amendments	1 January 2016
IAS 1 'Disclosure Initiative - Amendments	1 January 2016

Notes to the interim condensed consolidated financial information (continued)

8 Accounts receivable and other assets (continued)

8.1 Refundable development expenses represent development cost incurred to develop an economic city in the Kingdom of Saudi Arabia jointly with the Saudi authorities. The Parent Company was the main developer for this project.

During the 3rd quarter of the year 2014, Knowledge Economic City (KEC) - Kingdom of Saudi Arabia (the relevant Saudi authority), has announced through different media channels the termination of Al-Mal Investment's Contract (Developer of Prince Faisal Abdul Aziz Bin Musaed economic city – located in Hael) and assigning the development to Governmental parties. The management of the Parent Company has contacted KEC to inquire about this action, since based on the development contract, all contractual and formal procedures must be completed to rectify any breach (if any), before terminating the development contract.

Further, during the current quarter the Group has filed a legal case against Knowledge Economic City to recover refundable development expenses. The legal case was filed under the administrative court and the court had scheduled the first hearing on 27 September 2016 which was postponed to 29 November 2016. Upon consultation with the legal consultants and review of the development contract which stipulates that the total expenses incurred is re-imbursable, the Parent Company's management is confident that the Parent Company has the right to recover the above refundable development expenses in full.

- 8.2 During the 1st and 2nd quarter of the current period, a provision of KD4,792,044 and KD7,976,282 respectively (KD1,596,804 during the 3rd quarter of 2015 and KD1,602,871 during the 4th quarter of 2015)) was recognised against refundable development expenses in accordance with Central Bank of Kuwait requirements.
- 8.3 Other assets includes an amount of KD1,000,000 (31 December 2015: KD1,400,000 and 30 September 2015: KD400,000) which represents payments made to investee Companies for potential investments and the investees have informed that these projects will not be executed. Accordingly, the management expects that these amounts will be returned in full within a short period.

9 Available for sale investments (continued)

- 9.1 Available for sale investments include investments of KD1,209,383 (31 December 2015: KD336,652 and 30 September 2015: KD103,282), carried at cost less impairment, if any, due to the unpredictable nature of future cash flows and the unavailability of financial information to arrive at a reliable measure of fair value.
- 9.2 Information for investments in private equity funds and direct equity funds is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.
- 9.3 During the year 2015, the Group acquired the foreign quoted REIT's as part of the consideration due on disposal of the Sukuk investments to a foreign buyer. The Group has agreed with the foreign buyer to keep the securities in a fiduciary account and have also agreed to certain restrictions on the sale of those shares. However, the Group expects the shares to be fully disposed by 15 January 2017, and the foreign party has guaranteed a minimum proceed from the sale of those securities if the total proceeds don't reach the agreed minimum amount no later than 15 January 2017. During the current period the company disposed shares with a carrying value of KD704,845 realising a net gain of KD13,487 in the consolidated statement of profit or loss. The agreed minimum amount approximates the carrying value as of 31 December 2015 and 30 September 2016.
- 9.4 During the period, the Group recognised an impairment loss of KD112,053 (30 September 2015: KD557,002) for certain local and other foreign unquoted investments, based on estimates made by management and the net asset values reported by investment managers.

- 12.1 Investment properties of a local subsidiary are pledged against the Islamic Debt Instruments of KD4,206,871 (31 December 2015: KD4,039,496 and 30 September 2015: KD5,083,863).
- 12.2 The above murabaha matures by the end of October 2016 and the Group is currently negotiating with the lender to repay an amount of KD600,000 and to renew the remaining balance for a one year term.
- 12.3 The effective cost rate of the Islamic debt instruments is 5% (31 December 2015: 5% and 30 September 2015: 5.5%).

13 Bonds issued

13.1 In 2014 the management of the Parent Company commenced negotiations with its bondholders to restructure its dues and during the 3rd quarter of 2014, the management of the Parent Company has submitted a proposal to the bondholders to settle 50% of the amounts due in cash and consequently the bondholders to agree to waive 20% of their dues (including interest) and to swap their remaining 30% of the outstanding bonds into an equity stake in the Parent Company. The planned debt to equity swap will result in bonds with a value of KD3,596,400 (30%) being converted into 35,964,000 new shares in the Parent Company's share capital at par value of 100fils per share.

13 Bonds (continued)

Consequent to the above proposal, during the 1st quarter of 2015, the Group reached an agreement with a bondholder (through a foreign subsidiary) to whom an amount of KD1,350,000 was due as of 31 December 2013 (2014: reached an agreement with bondholders to whom amounts totalling to KD9,738,000 were due as of 31 December 2013) to settle 50% of the amounts due in cash and consequently the bondholder has agreed to waive 20% of the dues and to swap the remaining 30% of the outstanding bonds into an equity stake in the Parent Company.

Consequent to these agreements reached, the Group through its foreign subsidiary settled in cash 50% of the above mentioned dues amounting to KD675,000 during the 1st quarter of 2015 (KD4,869,000 during 2014) and the gain which resulted from the waiver of the principle and interest due amounting to KD270,000 was recognised as income during the 1st quarter of 2015 (KD2,519,032 was recognised as income in 2014). Accordingly during the 2nd quarter of the year 2015, upon completion of the debt to equity swap, the Parent Company issued 33,264,000 new shares to these bondholders in settlement of the remaining balance due to them which amounted to KD3,326,400 as at 31 December 2014 and 30 September 2015 (refer note 14).

Consequent to the above the foreign subsidiary of the Group has re-purchased approximately 92.5% of the bonds issued as of 31 December 2013 and the Parent Company's bonds issued balance has decreased to KD900,000 at 30 September 2016.

13.2 On 30 November 2014, the bondholders (referred to in 13.1 above) agreed to extend the due date of the bonds issued to 18 November 2016 and to reduce the interest on fixed interest bearing bonds to 1% fixed interest rate and floating bonds to bear floating interest rate at maximum 1% per annum (previously fixed interest bearing bonds carry interest rate at 8.875% per annum and the floating interest bearing bonds carry interest rate at 5.5% per annum over the Central Bank of Kuwait discount rate). Interest is payable semi-annually in arrears. The bondholders owning the remaining bonds with a carrying value of KD900,000 out of the Bonds issued balance as of 31 December 2013 (representing 7.5% of the bondholders) has filed a legal case against the Parent Company and further one of the old bondholders (who previously owned bonds with a carrying value of KD900,000 out of the bonds issued balance as of 31 December 2013, representing 7.5% of the bondholders as of that date, and who has now become a shareholder due to the debt to equity swap) has also filed a legal case against the Parent Company. However the Group's management is confident that the legal cases have no basis and is confident that the case will be decided in favour of the Parent Company.

14 Share capital (continued)

- 14.1 Consequent to the debt to equity swap carried out during the year 2014/2015, during the 2nd quarter of the year 2015, the Parent Company issued 141,262,260 new shares at par value of 100 fils each amounting to KD14,126,226 to lenders and certain bondholders.
- 14.2 In accordance with International Financial Reporting Standards an amount of KD9,323,309 representing the difference between fair value of the equity issued (KD4,802,917) and carrying value of the debt settled to lenders and bondholders (KD14,126,226) was recognised in the consolidated statement of profit or loss during the 2nd quarter of 2015. However, in compliance with the local laws, the new shares were issued at par value, and the difference between the par value and the fair value of the new equity issued amounting to KD9,323,309 has been recorded in accumulated losses in the consolidated statement of changes in equity during the same period. Consequently, this transaction had no effect on the net equity attributable to the owners of the Parent Company as of 31 December 2015.

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In the opinion of the Parent Company's management, except for certain available for sale investments which are carried at cost less impairment for reasons specified in note 9, the carrying amounts of financial assets and liabilities as at 30 September 2016 and 31 December 2015 approximate their fair values.

17.2 Fair value hierarchy for financial instruments measured at fair value

All assets and liabilities for which fair value is measured or disclosed in the financial statements are grouped into three Levels of a fair value hierarchy. The nine Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

17 Financial instruments (continued)

17.2 Fair value hierarchy for financial instruments measured at fair value (continued)

The financial assets and liabilities measured at fair value on a recurring basis in the interim consolidated

statement of financial position are grouped into the fair value hierarchy as follows:

Measurement at fair value

The methods and valuation techniques used for the purpose of measuring fair value are as follows:

a) Quoted shares/quoted REIT

All quoted equity securities are publicly traded in stock exchanges. Fair values have been determined by reference to their quoted bid prices at the reporting date.

b) Mutual funds

The underlying investments of these funds comprise of quoted securities and the fair value of the investment as of the reporting date is determined based on net asset values reported by the fund manager.

c) Unquoted shares

These represent holdings in local and foreign unlisted securities which are measured at fair value. Fair value is estimated based on the net asset value reported in the latest available financial information, discounted cash flow model or other valuation technique which includes some assumptions that are not supportable by observable market prices or rates.

d) Private and direct equity funds

The underlying investments in these private and direct equity funds mainly represent local and foreign quoted and unquoted securities. Information for these investments is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.

e) Portfolios managed by others

The underlying investments in managed portfolios represent quoted and unquoted securities. They are valued based on latest fund managers' reports.

Level 3 Fair value measurements

The Group's measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market date. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	30 Sept. 2016 (Unaudited) KD	31 Dec. 2015 (Audited) KD	30 Sept. 2015 (Unaudited) KD
Opening balance Change in fair value Disposals during the period/year Additions during the period/year Movement between level 3 and carried at cost Transferred to level 1 (due to listing) Impairment of level 3 investments	5,648,588 (222,614) (160,689) - (1,050,006) (314,483) (32,308)	4,,644,283 1,443,545 (733,956) 955,000 (103,282) - (557,002)	4,644,283 1,380,839 (482,484) 1,337,113 (103,282)
Closing balance	3,868,487	5,648,588	6,219,467
Total amount included in profit or loss for unrealised gain on level 3 instruments under investments at fair value through profit or loss	(198,938)	392,087	

Changing inputs to the level 3 valuations to reasonably possible alternative assumption would not change significantly amounts recognised in profit or loss, total assets or total liabilities or total equity.
